Re: EPA's Consolidated Multi-Media Inspection
Brookhaven National Laboratory, July 27, 2016

Dear Mr. Remien:

On July 27, 2016, a representative from the U.S. Environmental Protection Agency (EPA) Region 2 conducted a consolidated multi-media inspection of the Brookhaven National Laboratory facility. A copy of the inspection report is enclosed for your review.

We are suggesting you review the enclosed report in its entirety, but of immediate concern please become familiar with **Section 3**, Preliminary List of Potential Concerns, which identifies field observations that may not be in conformance with federal environmental requirements, and **Section 5**, Requested Documents, which summarizes requested documents and other relevant information that are necessary to complete our compliance evaluation.

We are requesting feedback regarding the items in Section 3 and Section 5 be provided to us within 45 days of the date of this letter. Your feedback should include any information which supports your facility's position, including photos, documentation, and written explanations, and can be sent via the U.S. Postal Service or in the form of an e-mail to us. Feedback regarding the information presented in the other sections of the report is also welcome.

If you have any questions regarding compliance issues or voluntary measures, please contact Linda Longo of my staff at 212-637-3565 or longo.linda@epa.gov. Your response to this letter must be either e-mailed or mailed using the following address:

Linda Longo
US EPA Region 2
Division of Enforcement and Compliance Assistance
290 Broadway, 21st Floor
New York, New York 10007-1866

Ms. Longo is the Federal Facilities Program Manager for EPA Region 2 and can provide you with any additional information you may need regarding the inspection or how to improve your overall environmental footprint. She can also provide to you an electronic copy of the

attachments referenced in the inspection report, if needed. In addition, please remember that **FedCenter.gov** is an important on-line resource for environmental stewardship and compliance assistance information for Federal Facility managers and their agencies. For facilities located in flood prone areas the enclosed Flood Resource CD-ROM contains a multitude of regulatory guidance beneficial for facilities.

Sincerely,

Kathleen Malone-Bogusky, Chief
Compliance Assistance Section
Division of Enforcement and Compliance Assistance
